Forward-Looking Statements

This communication may contain forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, and for purposes of the “safe harbor” provisions under the United States Private Securities Litigation Reform Act of 1995. Any statements other than statements of historical fact contained herein are forward-looking statements. Such forward-looking statements include, but are not limited to, expectations, hopes, beliefs, intentions, plans, prospects, financial results or strategies regarding PublicSq. and the Proposed Transaction and the future held by the respective management teams of Colombier or PublicSq., the anticipated benefits and the anticipated timing of the Proposed Transaction, future financial condition and performance of PublicSq. and expected financial impacts of the Proposed Transaction (including future revenue, pro forma enterprise value and cash balance), the satisfaction of closing conditions to the Proposed Transaction, financing transactions, if any, related to the Proposed Transaction, the level of redemptions of Colombier’s public stockholders and the products and markets and expected future performance and market opportunities of PublicSq. These forward-looking statements generally are identified by the words “anticipate,” “believe,” “could,” “expect,” “estimate,” “future,” “intend,” “may,” “might,” “strategy,” “opportunity,” “plan,” “project,” “possible,” “potential,” “project,” “predict,” “scales,” “representative of,” “valuation,” “should,” “will,” “would,” “will be,” “will continue,” “will likely result,” and similar expressions, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual future events to differ materially from the forward-looking statements in this communication, including, without limitation: (i) the risk that the Proposed Transaction may not be completed in a timely manner or at all, which may adversely affect the price of Colombier’s securities, (ii) the risk that the Proposed Transaction may not be completed by Colombier’s business combination deadline and the potential failure to obtain an extension of the business combination deadline if sought by Colombier, (iii) the failure to satisfy the conditions to the consummation of the Proposed Transaction, including, among others, the condition that Colombier has cash or cash equivalents of at least \$33 million (subject to reduction for (x) transaction expenses of Colombier and PublicSq., up to an aggregate of \$15 million, and (y) the aggregate amount of any additional private financing transactions by PublicSq. consummated prior to closing in accordance with the terms of the Merger Agreement), and the requirement that the Merger Agreement and the transactions contemplated thereby be approved by the stockholders of Colombier and by the stockholders of PublicSq., respectively, (iv) the failure to obtain regulatory approvals, as applicable, required to consummate the Proposed Transaction, (v) the occurrence of any event, change or other circumstance that could give rise to the termination of the Merger Agreement, (vi) the effect of the announcement or pendency of the Proposed Transaction on PublicSq.’s business relationships, operating results, and business generally, (vii) risks that the Proposed Transaction disrupts current plans and operations of PublicSq., (viii) the outcome of any legal proceedings that may be instituted against PublicSq. or against Colombier related to the Merger Agreement or the Proposed Transaction, (ix) the ability to satisfy and maintain the listing of Colombier’s securities on the New York Stock Exchange or another national securities exchange, (x) changes in the competitive industries and markets in which PublicSq. operates, or plans to operate; variations in performance across competitors, changes in laws and regulations affecting PublicSq.’s business and changes in the combined capital structure, (xi) the ability to implement business plans, growth, marketplace and other expectations after the completion of the Proposed Transaction, and identify and realize additional opportunities, (xii) the potential inability of PublicSq. to achieve its business and consumer growth and technical development plans, (xiii) the ability of PublicSq. to enforce its current or future intellectual property, including patents and trademarks, along with potential claims of infringement by PublicSq. of the intellectual property rights of others, (xiv) risk of loss of key influencers, media outlets and promoters of PublicSq.’s business or a loss of reputation of PublicSq. or reduced interest in the mission and values of PublicSq. and the segment of the consumer marketplace it intends to serve and (xv) the risk of economic downturn, increased competition, a changing regulatory landscape and related impacts that could occur in the highly competitive consumer marketplace, both online and through “bricks and mortar” operations. The foregoing list of factors is not exhaustive. Recipients should carefully consider such factors and the other risks and uncertainties described and to be described in the “Risk Factors” section of Colombier’s IPO Prospectus, Colombier’s Annual Report on Form 10-K for the year ended December 31, 2022, as filed with the SEC on March 24, 2023, the Registration Statement, and subsequent periodic reports filed by Colombier with the SEC, and other documents filed or to be filed by Colombier from time to time with the SEC. These filings identify and address other important risks and uncertainties that could cause actual events and results to differ materially from those contained in the forward-looking statements. Forward-looking statements speak only as of the date they are made. Recipients are cautioned not to put undue reliance on forward-looking statements, and neither PublicSq. nor Colombier assume any obligation to, nor intend to, update or revise these forward-looking statements, whether as a result of new information, future events, or otherwise, except as required by law. Neither PublicSq. nor Colombier gives any assurance that either PublicSq. or Colombier, or the combined company, will achieve its expectations.

This Presentation does not purport to contain all of the information that may be required to evaluate a possible Transaction. This Presentation is not intended to form the basis of any investment decision by the recipient and does not constitute investment, tax or legal advice. No representation or warranty, express or implied, is or will be given by Colomblie or PublicSq, or any of their respective affiliates, directors, officers, employees or advisers or any other person as to the accuracy or completeness of the information in this presentation or any other written, oral or other communications transmitted or otherwise made available to any party in the course of its evaluation of a possible Transaction, and no responsibility or liability whatsoever is accepted for the accuracy or sufficiency thereof or for any errors, omissions or misstatements, negligent or otherwise, relating thereto. Forward-Looking Information

This Presentation contains forward-looking statements within the meaning of the federal securities laws with respect to the Transaction. Any statements other than statements of historical fact contained in this Presentation are forward-looking statements. These forward-looking statements generally are identified by the words "anticipate," "believe," "could," "expect," "estimate," "future," "intend," "may," "might," "strategy," "opportunity," "plan," "project," "possible," "potential," "project," "predict," "scale," "representative of," "valuation," "should," "will," "would," "will be," "will continue," "will likely result," and similar expressions, but the absence of these words does not mean that a statement is not forward-looking.

Forward-looking statements are predictions, projections and other statements about future events that are based on current expectations and assumptions and, as a result, are subject to risks and uncertainties. Many factors could cause actual future events to differ materially from the forward-looking statements in this Presentation, including but not limited to those set forth on slide 22 of this Presentation. Recipients should carefully consider such factors and the other risks and uncertainties to be described in the "Risk Factors" section of the registration statement on Form S-4, as amended (the "Form S-4"), that was filed by Colomblie in connection with the proposed Transaction on May 22, 2023, and other documents filed or to be filed by Colomblie from time to time with the Securities and Exchange Commission (the "SEC"). PublicSq's independent registered public accounting firm has not audited, reviewed, compiled or performed any procedures with respect to the projections and accordingly they did not express an opinion or provide any other form of assurance with respect thereto. These projections should not be relied upon as being necessarily indicative of future results. The assumptions and estimates underlying these projections are inherently uncertain and are subject to a wide variety of significant business, economic and competitive risks that could cause actual results to differ materially from those contained in these projections. Accordingly, there can be no assurance that these projections will be realized. Further, industry experts may disagree with these assumptions and with management's view of the market and the prospects for PublicSq.

Our Vision

Great companies are not created. They rise as a force of conviction. They are rooted in a worldview, and if done right, they rarely ask us to believe – they are simply believable.

As an idea grows into a movement, it changes hands. It moves from the founders to team members, early adopters, media, industry, and eventually pop culture. As it becomes embedded in the culture, in the fabric of those that believe in it, its power forces change. Change that we believe is desperately needed in America today as people continue to denigrate this great nation and disparage the principles on which it was built.

We're here to change that. We're here to serve America by supporting and building out a network of companies and brands rooted in the worldview of American exceptionalism. Companies that were built to serve hardworking Americans who still believe in the values that built this great nation and want to see it grow.

Our path to empowering the pro-American economy will be methodical and intentional but, in the end, it will be...

For Americans, By Americans...and For America.

7

PublicSq. is Changing Everything.

Our Solution: PublicSq.'s Values are Aligned with Customers

Until now, there was no easy-to-access network for values-driven consumers to discover which of the 30M small businesses in the United States are run by business owners with traditional views.¹

Our mission: be the largest, traditional-values-driven marketplace in the country and we believe that there is an obtainable market of 35+ million weekly active local shoppers² within 4 years.

We believe our marketplace network is the sole, widely accessible repository for companies promoting traditional American values and given our in-app revenue strategy and significant follow-on opportunities, we believe we are the clear leader in a sizable, yet largely unaddressed market.

How it Works: Businesses

When a new business owner signs up for our platform, they're asked to confirm that they respect the core values of PublicSq.

By affirming this, our businesses agree that they will not support causes that are in direct conflict with our core values.

Businesses that elect to advertise their services on PublicSq. enter into a paid multi-month subscription contract in order to increase their exposure to the consumers in our network.

15

How it Works: Consumers

Members download the app, create an account, and are able to search, shop and share values-aligned businesses in their local area and online.

Not only does PublicSq. exist as a values-aligned directory, but we're working to make the online shopping experience seamless as well.

The PublicSq. e-commerce platform is in active development with an expected release date later in 2023. The new platform will provide in-app shopping capabilities with discounts at businesses on the platform exclusively for the PublicSq. community.

Significant Recent Progress... And We're Just Getting Started

17

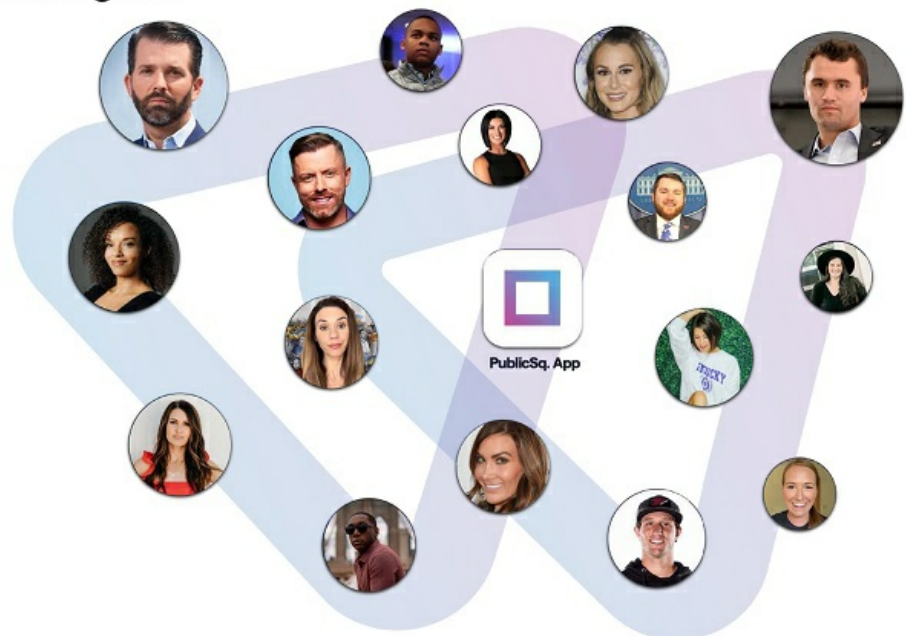

How it Works: Our Outreach Program

A curated group of over 350 highly influential individuals have been selected to act as ambassadors and influencers to advocate for our platform and its core values.

Our Outreach Program has an aggregate following of 40M+ people.

Ambassadors and influencers are supplied with a unique invite link that rewards them for each new member or business they invite to PublicSq.

Since the start of our Outreach Program in March 2022, this program has been a very successful tool in driving new consumers and businesses to the platform.

18

Our Business Model

The PublicSq. app serves as our primary ecosystem that connects freedom-loving consumers and businesses with shared values in order to create immediate trust-driven transactions.

We capture data about what our consumers are searching for and utilize that data to highlight opportunities in the market. If our community is searching for a product and there is not currently a values-aligned option, this is a chance for us to expand our product offering to our consumers through the creation of our own brands.

We intend to work with teams of industry experts to create, build, launch, and maintain our own direct-to-consumer (D2C) brands. We believe these will enable us to realize attractive margins because we have already established the primary customer acquisition channel.

We believe our mutually reinforcing business model will dramatically increase the revenue potential of our company and allow us to expand the reach of both the platform and each of the individual brands.

19

Our Target Consumer: "Holly"

With over 700,000 active members in our database, we've obtained data (consistent with our privacy policy) on *who* is using our app – and *what* they're looking for.

Meet "Holly": A 37 year old, upper-middle class woman with two kids who holds most of the spending power in the family. She's a "momma bear" who wants the products she buys and the businesses she supports to align with her traditional American values.

Holly is representative of the largest demographic in our community and now **we're making sure that Holly can find the products she wants.**

Our Roadmap to Success
